

Closer

Verse I:

**Oh Lord I felt your presence when I open my eyes this morning
I remember how we started the day together,
Somehow it drifted on
I need to feel your presence all through the day,
Sometimes I get weak and I want to stray**

Chorus:

**So I start all over again
Please Lord give me another chance
Today I want to be closer to you than I've ever been before (3x second time)**

Verse II:

**Oh Lord, it's my desire just to please You in all, in all that I do
Lord I want to walk like You, yes, I want to talk just like You
I want to live holy just like You tell me to
Oh there are times I must admit I fall a little short of your word
That's the times I call running and crying Lord help me just to make it,
Just to make it through**

Chorus:

Vamp:

**I want to be closer to you
Today I want to be closer to You than I've ever been before
Than I've ever been before
Than I've ever been before**
