

Holy One

Day is almost night. And I don't want to lose this fight.

I've fooled around much too long, yes I have.

Now I've been laxed.

But you see I don't want to ever look back, no, no, no.

Because I know that I've done wrong.

Lord, If you give me the strength I need,

Lord I want to be able to succeed.

And I'll heed to Your every command.

And to everyone I will show,

I will show my purpose and I will show my goals.

And, and in You I will be able to stand.

Holy One

Chorus:

Holy One

I never want to let you down no more (2x)

No More (4x)

I'll never let You down no more

No Never

Never [x4]
