

Prayer Still Works (Vanessa Bell Armstrong)

Lead

We've come this far by faith
Pick up your pace and don't you be late
I'm here to tell you 'bout the Good News
There's something about the path that we choose y'all

Wisdom has built this house now
Integrity will bring your pride down
If you know how to pray the situation out
Prayer is the answer there is no doubt

Chorus

Monday we held it together and
Wednesday we had stormy weather and
Friday we prayed it all better and
Sunday we heard from You (Stop here the first time through)

Repeat first three lines
Sunday ay ay ay ay ay ay

Lead

He won't stop blessing you
What He'll do is keep testing you
And a beggar's no less than you
'Cause one day (It could be you)

So get your folks together for some church y'all
Some good music and prayer and service won't hurt y'all
Even if you don't believe in the preacher
It's bound to be a few things he can teach you

Chorus

Lead

These are the greatest days of our test of time (Test of time)
We need to be working with a made up mind (With a made up mind)
Walk by faith not by sight
Then all your battles you know He'll fight

The sky changes colors and there's many ways
The world is gonna be a better place some day
If love in unity and you just believe
Then all your blessings you will receive
