

There is God

***There is God, He is alive and well. And he reign supreme over everything.
He is the God of all flesh.***

***He is the God that's created everything by the word of his power
And so we give God praise. And we give God honor. And we give God glory
Somebody rise up and praise him. Shake this place real quick
Yeah, yes, hallelujah. The song says,***

There is love that is like no other.

There is strength that will pull you through.

There is God standing in your corner.

There is nothing, nothing he cannot do.

There is grace that has no measure. There is mercy that has no end

There is life for you, there is joy and pleasure

There is God, he's your closest friend.

Everybody says

There is, there is (says). There is, there is (says). There is, there is (says).

There's God

**There is, there is God. There is, there is. There is, there is. There is, there is.
There is, there is God.**

There is hope for the brokenhearted. There is peace for the troubled soul.

There is help for the one discarded. There is God and he's in control.

(Repeat)

There is, there is. There is, there is. There is, there is. There is, there is.

There is, there is. There is, there is. There is, there is. There's God.

He is, he is. He is, he is. He is, he is. He is, he is God.

He is, he is. He is, he is. He is, he is. He is, he is God.

He is God. He is God. Everybody says. He is. He is God.

Jehovah Jireh, Jehovah Jireh. He is God. He's the God that he is.

***He's the God that saves.* He is God.**
